About Us:

Edutour is a pioneering educational tourism company that blends learning with travel. We Edutour Global Pvt. Ltd. design immersive experiences where students, professionals, and lifelong learners explore new destinations while gaining knowledge through curated programs, workshops, and cultural exchanges.

Mission:

- ▶ Provide transformative educational journeys that combine academics, culture, and adventure.
- ▶ Partner with schools, universities, and organizations to deliver customized learning tours.
- ▶ Promote sustainable tourism and responsible travel practices.

Services:

- **Student Exchange Programs:** Short-term international study tours.
- **Corporate Learning Tours:** Leadership and team-building retreats abroad.
- **Cultural Immersion Trips:** Hands-on experiences with local communities.
- **Academic Collaborations:** Partnerships with universities and research institutions.
- **Eco-Education Tours:** Focused on sustainability and environmental awareness.

Schools

Universities

Corporate organizations

Planning for Your Trip with Edutour.

Planning a group tour can be daunting. The distance and perceived risk in many cases need to be justified by the value of the experience as a whole. Here are a few steps to guide you through the process.

Step 1: Talk to us

Contact us via our website form, email or phone; Share your interests, requirements and ideals for your group tour. We will guide you through the process by asking the right questions.

Step 2: Proposal

We take into account your group's needs, special interests and specific requests and work with our experience and on the ground knowledge to create a proposed itinerary and estimated price. This process is a conversation and with your inputs, we refine the final proposed itinerary.

Step 3: Provisional Phase

Once we have the most suitable proposed itinerary and you accept it in principal, we go ahead and make some provisional preparations and bookings to make sure everything is in place for your group.

Step 4: Recruit your Group

If you have a preliminary group, now is the time to confirm who will be joining you. If you don't have a group in place, we can help you with promotional material such as e-brochures and proposals to present to relevant bodies or organisations. We could also present the itinerary via a webinar or arrange a conference call to answer any questions or concerns.

Step 5: Seal the Deal

Once we have an idea of numbers we start finalising booking. A payment schedule, along with relevant pre-departure documents is shared and we are in constant communication to make sure all is in place. Final changes and adjustments are made 4 weeks prior to arrival and all that's left to do is meet our tour manager at the airport / railway station or preferred location for your group's life-changing journey.

Get Ready for Travel...

Planning a trip to a new and relatively unknown destination can be a daunting task. To make things easier, we make sure to send through a pre-departure document to all our groups.

This document contains the essentials you need to know regarding the regions and countries relevant to your trip.

Here are a few general tips to bear in mind when preparing for your visit:

Passport & Visa Check

Ensure your passport is valid for at least six months beyond your travel dates.

Health Precautions

Get travel vaccinations at a hospital or clinic, stock up on meds, pack a first-aid kit

Itinerary Review

Know your plan. Memorize key details, addresses, and contact info from the itinerary

Financial Preparation

Ensure you have a mix of cash and cards, and understand the local currency exchange rates

Travel Insurance

It's essential for protecting against unforeseen events, from health issues to trip cancellations

Pack Smart

Remember to pack light and include versatile clothing and essential travel gadgets

Local Research

Know local customs, learn the basics, download offline maps and essential apps

Why Educational Trip

Educational trips are required because they extend learning beyond the classroom, giving students real-world exposure, hands-on experience, and deeper understanding of subjects. They also build social skills, confidence, and cultural awareness.

Reinforcement:

The trip can reinforce what a teacher has been instructing in class about a subject and help students understand the topic better.

Engagement:

Teachers turn trips into mobile classrooms, instructing students to collect data, or assigning a project based on what they learned during the outing.

Socialization:

Taking students into a new environment gives them the experience of travelling in a group and teaches them to be respectful of the locations they visit.

Exposure:

Kids get to visit a place to which they have never been before. This is advantageous to students who are less fortunate and don't have the opportunity to travel.

Curiosity:

Students who go on educational trips find that they want to learn more about the subjects on which the trip focused.

Retention:

The type of memories that educational trips create, called "episodic memories," helps children retain information for longer periods.

I came across EDUTOUR while I was planning for a family tour to Europe in 2023 and US in 2025. I had an excellent overall experience with their management skills right from Visa application process to executing the perfectly managed tour plan. Mr Kaushal had taken all the sincere efforts to make it comfortable and peaceful. He helped us right from the beginning. First of all he explained us how to fill the visa application form properly and avoid silly mistakes which can complicate the process. Even after taking all the precautions I made a small mistake in my daughter's application form, for which I was asked to pay Rs. 3000/- at the vls center. I consulted Mr. Kaushal regarding the same and he solved my problem online within 5 minutes.

Really it was my best trip ever with Edutour Global Private Limited. We all enjoyed in Japan. We started from Tokyo and ends at Osaka from 11 Oct to 18 Oct 2025 and the services provided by Kaushal sir is really fabulous. Hotels are at above 4 star. Bus Driver is really very polite and perfect. Thanks Kaushal sir for your best service for our school group to Japan. Specially Visiting JAXA SPACE CENTER is really wonderful experience in my life. I recommend to everyone must travel with EDUTOUR.

Found EDUTOUR accidentally while surfing for overseas tour operators for my Europe tour in 2023 but their response was so prompt and genuine that I left all others and got connected to them. Since then they are assisting and guiding me for every tour. Mr. Kaushal the CEO himself handles our tour right from visa application process to executing the complete tour plan hassle free. He guided us in filling the visa application form in right way by avoiding silly and common mistakes which everyone is about to do leading to visa rejection. He helped us by giving minute details regarding the visa interview, the possible questions asked and their reply, things to carry at embassy which helped me a lot. He discusses the tour itinerary in detail and helps in booking flights and hotels as well. He also manages the ground transport with guided site seeing remotely. He appointed a personal guide for our Europe tour who was with us every minute virtually helping us out at every step due to which we never felt lost in the foreign country. Hence I would personally recommend EDUTOUR as your travel partner and tour operator overseas.

My NASA trip as a 12th-class student was one of the best experiences of my life, all thanks to Kaushal Sir. The trip was perfectly planned, safe, and very educational. We explored NASA, learned so much about space science, and enjoyed every moment without any worries. I'm truly grateful to Kaushal Sir for giving us this amazing opportunity and creating memories that will stay with me forever. Highly recommended!
